

ST. LUKE PRESBYTERIAN CHURCH

AMARILLO, TX

CORONAVIRUS PROTECTIONS UPDATE AS OF MARCH 4, 2021

Congratulations, Amarillo, on community efforts to protect one another from COVID-19 and promote good health in our community. Thanks to the City of Amarillo Health Department and FEMA, many of our congregation members have received vaccines for the Coronavirus, and this adds to the effort for keeping our hospitals in a manageable position and helping individuals move throughout the community with an added protection.

Nevertheless, we will continue to maintain our virtual opportunities and err on the side of caution as we slowly provide new in-person opportunities.

With the movement of our community to Level Orange, the Session approved (on February 21, 2021) the use of the building by small groups maintaining social distancing, wearing masks, and using our air purifiers. Please continue to hold our committees and Session in prayer, as they evaluate our risk levels while following our calling to share God's love with the world.

We will announce new events, studies, projects, and worship services as the dates and procedures become available. Worship continues to be available Sunday mornings at 11 a.m. on Facebook Live and in the afternoon on YouTube.
