ST. LUKE PRESBYTERIAN CHURCH
AMARILLO, TX

CORONAVIRUS PROTECTIONS UPDATE
AS OF APRIL 19, 2021

Dear St. Luke friends and family,

I have genuinely enjoyed worshiping with you over the past few weeks in person and online, and I am grateful for your encouragement of one another as we navigate these thresholds, opening one door after another, crossing into another new space each week, one step at a time. After reflecting on our evolving practice of in-person worship, the Session has set a few new procedures.

We will no longer require registrations for weekly in-person worship.
Please continue to monitor your own health and evaluate whether in-person or at-home worship works best for you and our St. Luke family, recognizing that gathering in groups for an extended amount of time increases the risk for exposure to COVID-19.

We will continue to require the answering of screening questions for the use of our nursery to protect the health of our children and caregivers.
Additionally, the Session has approved the purchase of an air-purifier for the nursery. Parents are encouraged to fill out a request form, in order that we might provide adequate care and still be prepared for visitors.

Building use continues to be limited to two groups a day, but more opportunities to gather inside and outside will be popping up in the month of May! Stay tuned!

As we **continue with our other precautions** such as wearing masks, practicing social distancing, and refraining from congregational singing, we ultimately give thanks for the opportunity to gather in a variety of ways, enjoy the musical gifts of our worship leaders, and persevere with creativity in order to support one another and continue our mission to welcome and embrace all.

Grace and Peace,

Pastor Kati
